This manual provides complete information detailing the description, installation and integration of your Motorola Oncore GPS receiver and antenna. To help you find the information you need, we have provided a brief overview of each chapter.

### **Quick Start**

This section provides instructions for a quick start of the Oncore Evaluation Kit.

### **Chapter 1 Introduction**

This chapter introduces you to the Oncore product and the Global Positioning System (GPS) includes a glossary of GPS related terms and acronyms.

### **Chapter 2 GPS Principles**

This chapter describes the segments and capabilities of GPS.

### **Chapter 3 Receiver Descriptions**

This chapter describes the features and technical characteristics of the Oncore receivers, installation considerations, and system integration.

### **Chapter 4 Antenna Descriptions**

This chapter describes the technical characteristics and installation considerations of the Oncore antennas.

### **Chapter 5 Remote GPS**

This chapter describes the features, technical characteristics, and installation considerations of the Oncore Remote GPS.

### **Chapter 6 I/O Commands**

This chapter provides a complete list and description of all of the Oncore Input/Output (I/O) commands.

### **Chapter 7 Evaluation Kit**

This chapter describes the contents and use of the Oncore Evaluation Kits, and the installation and operation of WinOncore and the DOS controller software.

### **Appendix Glossary**

Definitions of GPS related terms and acronyms.
